## eQUATE! System

The “eQUATE! CCS” plate is your link between the printing press and the color standard! Utilizing the eQuate! Color Correlation plate and your desktop proofer, color matching will be a snap. WRE/ColorTech has developed plates with proven values to correlate to any print process, press volume, ink formulation or speed of your production press.

The eQuate CCS plates are available on-line for immediate shipping in both low and high volume applications for surface and reverse print at WRE/ColorTech’s website. For further information please contact a WRE/ColorTech representative.
